

States. If an animal was born and/or raised in Country X and/or (as applicable) Country Y, and slaughtered in the United States, the resulting muscle cut covered commodities shall be labeled to specifically identify the production steps occurring in each country (e.g., “Born and Raised in Country X, Slaughtered in the United States”). If an animal is raised in the United States as well as another country (or multiple countries), the raising occurring in the other country (or countries) may be omitted from the origin designation except if the animal was imported for immediate slaughter as defined in § 65.180 or where by doing so the muscle cut covered commodity would be designated as having a United States country of origin (e.g., “Born in Country X, Raised and Slaughtered in the United States” in lieu of “Born and Raised in Country X, Raised in Country Y, Raised and Slaughtered in the United States”).

(f) *Labeling Imported Covered Commodities.* (1) Perishable agricultural commodities, peanuts, pecans, ginseng, macadamia nuts and ground meat covered commodities that have been produced in another country shall retain their origin, as declared to U.S. Customs and Border Protection at the time the product entered the United States, through retail sale.

(2) Muscle cut covered commodities derived from an animal that was slaughtered in another country shall retain their origin, as declared to U.S. Customs and Border Protection at the time the product entered the United States, through retail sale (e.g., “Product of Country X”), including muscle cut covered commodities derived from an animal that was born and/or raised in the United States and slaughtered in another country. In addition, the origin declaration may include more specific location information related to production steps (i.e., born, raised, and slaughtered) provided records to substantiate the claims are maintained and the claim is consistent with other applicable Federal legal requirements.

(g) *Labeling Commingled Covered Commodities.* In the case of perishable agricultural commodities; peanuts; pecans; ginseng; and macadamia nuts: For im-

ported covered commodities that have not subsequently been substantially transformed in the United States that are commingled with covered commodities sourced from a different origin that have not been substantially transformed (as established by CBP) in the United States, and/or covered commodities of United States origin, the declaration shall indicate the countries of origin in accordance with existing Federal legal requirements.

(h) *Labeling Ground Beef, Ground Pork, Ground Lamb, Ground Goat, and Ground Chicken.* The declaration for ground beef, ground pork, ground lamb, ground goat, and ground chicken covered commodities shall list all countries of origin contained therein or that may be reasonably contained therein. In determining what is considered reasonable, when a raw material from a specific origin is not in a processor's inventory for more than 60 days, that country shall no longer be included as a possible country of origin.

(i) *Remotely Purchased Products.* For sales of a covered commodity in which the customer purchases a covered commodity prior to having an opportunity to observe the final package (e.g., Internet sales, home delivery sales, etc.), the retailer may provide the country of origin notification either on the sales vehicle or at the time the product is delivered to the consumer.

[74 FR 2704, Jan. 15, 2009, as amended at 78 FR 31385, May 24, 2013]

§ 65.400 Labeling.

(a) Country of origin declarations can either be in the form of a placard, sign, label, sticker, band, twist tie, pin tag, or other format that allows consumers to identify the country of origin. The declaration of the country of origin of a product may be in the form of a statement such as “Product of USA,” “Produce of the USA”, or “Grown in Mexico,” may only contain the name of the country such as “USA” or “Mexico,” or may be in the form of a check box provided it is in conformance with other Federal labeling laws.

(b) The declaration of the country of origin (e.g., placard, sign, label, sticker, band, twist tie, pin tag, or other display) must be legible and placed in a

conspicuous location, so as to render it likely to be read and understood by a customer under normal conditions of purchase.

(c) The declaration of country of origin may be typed, printed, or handwritten provided it is in conformance with other Federal labeling laws and does not obscure other labeling information required by other Federal regulations.

(d) A bulk container (e.g., display case, shipper, bin, carton, and barrel) used at the retail level to present product to consumers, may contain a covered commodity from more than one country of origin provided all possible origins are listed.

(e) In general, country abbreviations are not acceptable. Only those abbreviations approved for use under Customs and Border Protection rules, regulations, and policies, such as “U.K.” for “The United Kingdom of Great Britain and Northern Ireland”, “Luxemb” for Luxembourg, and “U.S. or USA” for the “United States of America” are acceptable. The adjectival form of the name of a country may be used as proper notification of the country of origin of imported commodities provided the adjectival form of the name does not appear with other words so as to refer to a kind or species of product. Symbols or flags alone may not be used to denote country of origin.

(f) Domestic and imported perishable agricultural commodities, peanuts, pecans, macadamia nuts, and ginseng may use State, regional, or locality label designations in lieu of country of origin labeling. Abbreviations may be used for state, regional, or locality label designations for these commodities whether domestically harvested or imported using official United States Postal Service abbreviations or other abbreviations approved by CBP.

RECORDKEEPING

§ 65.500 Recordkeeping requirements.

(a) *General.* (1) All records must be legible and may be maintained in either electronic or hard copy formats. Due to the variation in inventory and accounting documentary systems, various forms of documentation and records will be acceptable.

(2) Upon request by USDA representatives, suppliers and retailers subject to this subpart shall make available to USDA representatives, records maintained in the normal course of business that verify an origin claim. Such records shall be provided within 5 business days of the request and may be maintained in any location.

(b) *Responsibilities of suppliers.* (1) Any person engaged in the business of supplying a covered commodity to a retailer, whether directly or indirectly, must make available information to the buyer about the country(ies) of origin of the covered commodity. This information may be provided either on the product itself, on the master shipping container, or in a document that accompanies the product through retail sale. In addition, the supplier of a covered commodity that is responsible for initiating a country(ies) of origin claim, which in the case of beef, lamb, chicken, goat, and pork is the slaughter facility, must possess records that are necessary to substantiate that claim for a period of 1 year from the date of the transaction. For that purpose, packers that slaughter animals that are tagged with an 840 Animal Identification Number device without the presence of any additional accompanying marking (i.e., “CAN” or “M”) may use that information as a basis for a U.S. origin claim. Packers that slaughter animals that are part of another country’s recognized official system (e.g., Canadian official system, Mexico official system) may also rely on the presence of an official ear tag or other approved device on which to base their origin claims. Producer affidavits shall also be considered acceptable records that suppliers may utilize to initiate origin claims, provided it is made by someone having first-hand knowledge of the origin of the covered commodity and identifies the covered commodity unique to the transaction. In the case of cattle, producer affidavits may be based on a visual inspection of the animal to verify its origin. If no markings are found that would indicate that the animal is of foreign origin (i.e., “CAN” or “M”), the animal may be considered to be of U.S. origin.

(2) Any intermediary supplier handling a covered commodity that is
